Claimant	John Doe	**Claim number**	KM-26-440871
Our insured	Robert Smith	**Policy number**	KMI-PA-7731045
Date of loss	02/06/2026	**Your file**	LSH-2026-MVA-770412

Dear Mr. Thone:

We have completed our review of your letter of July 20, 2026, demanding the $10,000.00 per-person bodily injury limit on behalf of your client, John Doe, together with the records and bills enclosed with it.

Based on the documentation presented, Keystone Mutual Insurance offers **$3,500.00** in full settlement of Mr. Doe's bodily injury claim against our insured, Robert Smith.

Our evaluation took the following into account:

1. **Delay in treatment.** Your client waited two weeks to seek any treatment. He declined transport at the scene, and his first documented medical visit is February 20, 2026, fourteen days after the accident. Complaints that go untreated for two weeks after an accident are difficult to relate to that accident, and the reasonableness of the care that followed is evaluated with that in mind.
2. **MRI findings.** The MRI findings are degenerative in nature. A disc herniation of this kind is a common finding in the adult population and, in the absence of contemporaneous treatment, we do not consider it established that the condition shown on the March 13, 2026 study was caused by this accident rather than pre-existing.

To complete our evaluation, please provide the following:

- Mr. Doe's medical records for the five years before the accident, including all chiropractic treatment;
- the actual MRI images (on disc) from Summit Imaging Center, for review by our consultant;
- Crescent Pain & Spine's office notes for the visits before and after the May 15, 2026 injection; and
- a complete pharmacy printout from Riverton Drug for February through June 2026.

Please present this offer to your client. We remain willing to discuss resolution of this claim and will consider any additional information you provide. Nothing in this letter waives any of the rights or defenses of Keystone Mutual Insurance or its insured.

Sincerely,

Dana Whitfield
