Re: Our client: John Doe · Your insured: Robert Smith
Claim no.: KM-26-440871 · Date of loss: February 6, 2026
Our time-limited demand of July 20, 2026

Dear Ms. Whitfield:

We received your letter of August 5, 2026 offering $3,500 to resolve Mr. Doe's bodily injury claim. Your letter gives two reasons: that our client "waited two weeks to seek any treatment," and that "the MRI findings are degenerative in nature." The records already in your file answer both, and we enclose them again for your review:

1. **Cervical MRI report**, Summit Imaging Center, March 13, 2026 (Dr. Helen Park, MD). The radiologist found a C5-C6 right paracentral disc herniation with mild right foraminal narrowing, and her impression states: "no significant degenerative change at the adjacent levels."
2. **Causation letter**, Dr. Alana Reyes, MD, Lakeside Orthopedics, June 19, 2026. To a reasonable degree of medical probability, delayed presentation is clinically consistent with a disc injury whose radicular symptoms evolve over days to weeks, and the C5-C6 herniation was more likely than not caused by the February 6, 2026 collision.
3. **Riverton Fire EMS run report** RF-26-0206-114, February 6, 2026: "restrained front-seat passenger, complains of neck stiffness." The neck complaint was made at the scene.
4. **Gap explanation record**: no ride: his mother's Civic was towed and her rental began only February 18, 2026; over-the-counter treatment from February 7 (pharmacy receipt); work call-outs for neck pain February 9–13 (Northgate Distribution records); right-hand numbness from February 18 and urgent care on February 20, his first day off.

The injury was reported on the day of the collision and treated from the day after it. Our client's demand for the $10,000 policy limits stands. By its terms it remains open until **August 21, 2026**, 30 days from your receipt on July 22, 2026, on the conditions stated in our July 20 letter. Please respond in writing.

Sincerely,

Case Manager

Subject: RE: John Doe / Robert Smith — Claim KM-26-440871

I have reviewed your August 6 letter and the enclosures. Our evaluation has not changed. Your client did not seek treatment for two weeks after the accident and the MRI findings are consistent with degeneration.

$3,500 is our final offer.

Dana Whitfield

Subject: John Doe / Robert Smith — Claim KM-26-440871 — request for response

Ms. Whitfield,

Thank you for your email of August 12. It does not respond to the medical evidence enclosed with our August 6 letter. Our client's time-limited demand of July 20, 2026 expired by its terms on August 21, 2026 without acceptance.

Please send us, by **Monday, August 31, 2026**:

1. Keystone's written response to the MRI impression, Dr. Reyes's causation letter and the EMS report; and
2. the evidence Keystone relied on for its position that the MRI findings are degenerative (any medical review, records review or physician opinion) and for its position on the treatment gap.

Re: John Doe · Your insured Robert Smith · Claim no. KM-26-440871 · DOL February 6, 2026
SECOND REQUEST

Dear Ms. Whitfield:

We have had no response to our email of August 24, 2026, and no return of our telephone message of August 27. We again ask for Keystone's written response to the medical evidence enclosed with our letter of August 6, 2026, and for the evidence Keystone relied on for its "degenerative" and treatment-gap positions. Please respond by **Wednesday, September 2, 2026**.

Sincerely,

Case Manager

Re: John Doe · Your insured Robert Smith · Claim no. KM-26-440871 · DOL February 6, 2026
Adjuster: Dana Whitfield — **request for supervisory review**

Dear Mr. Holloway:

This firm represents John Doe. I am writing to you as claims supervisor because our requests to the assigned adjuster have gone unanswered. Our policy-limits demand was received by Keystone on July 22, 2026 and expired on August 21, 2026. Keystone's $3,500 offer of August 5 cited a treatment gap and "degenerative" MRI findings; our August 6 letter enclosed the radiologist's impression ("no significant degenerative change at the adjacent levels"), the treating orthopedist's causation opinion and the EMS report. Ms. Whitfield replied on August 12 only that $3,500 is final. Our requests of August 24 and August 31 for a written response and for the evidence Keystone relied on have received no reply.

Please review the file and respond within 48 hours — by **Friday, September 4, 2026** — stating whether Keystone will reconsider its evaluation and identifying the evidence it relies on. Without a response, we will report the impasse to Atty. Thorne and our client for a decision on next steps, including suit.

Sincerely,

Case Manager
