INITIAL EVALUATION — CHIROPRACTIC & PHYSICAL THERAPY

Date of evaluation 02/24/2026 (Tue) · 4:15 PM

PATIENT		
PATIENT John Doe	DOB 08/14/1991	ACCOUNT RSR-26-0412
REFERRED BY Nina Patel, PA-C, Riverton Urgent Care (02/20/2026)	DATE OF INJURY 02/06/2026	MECHANISM MVC — passenger
FINANCIAL CLASS Letter of Protection — LSH Law Group (on file 02/23/2026)	HEALTH PLAN ON FILE Peach State PSH-55017742 — out of network for this office	

History

Present illness. Mr. Doe was the restrained front-seat passenger in a vehicle struck on the passenger door by a pickup truck that failed to stop at an all-way stop on 02/06/2026. Immediate neck stiffness at the scene; declined transport. Neck pain increased over the following days and he missed a week of work. Numbness into the right thumb and index finger began 02/18/2026. Seen at Riverton Urgent Care 02/20/2026: cervical strain, rule out radiculopathy; started cyclobenzaprine and naproxen; referred for chiropractic/PT and to orthopedics.

Current complaints. Posterior neck pain 7/10, right worse than left, into the right upper trapezius; intermittent right-hand numbness (thumb, index finger), worse turning the head right and looking up; difficulty sleeping more than 3–4 hours; trouble checking blind spots and lifting overhead at work.

Past history. 2021 chiropractic care for low-back stiffness, 3 visits, resolved; no prior neck complaints. No prior motor vehicle collisions, no fractures, no surgery. No other medical conditions reported.

Examination

Cervical active ROM	Measured	Normal	Comment
Flexion	35°	50°	pain at end range
Extension	30°	60°	reproduces right arm tingling
Rotation right / left	40° / 55°	80°	guarded right
Lateral flexion right / left	20° / 30°	45°	right trapezius pull

- **Palpation:** hypertonicity and tenderness right C4–C7 paraspinals, right upper trapezius and levator scapulae; segmental restriction C5-C6 and C6-C7 right.
- **Orthopedic tests:** Spurling's positive on the right (arm paresthesia); cervical distraction relieves symptoms; shoulder abduction relief sign positive right.
- **Neuro:** diminished light touch right C6 dermatome; myotomes 5/5 except right wrist extension 4+/5; DTRs 2+ symmetric.
- **Outcome measures:** Neck Disability Index 46% (moderate-severe); grip strength R 38 kg / L 46 kg.

Assessment

Acute cervical sprain/strain with segmental dysfunction and right upper-extremity radicular signs following the 02/06/2026 collision. Findings consistent with the urgent-care history. Orthopedic consultation pending. Dx: S13.4XXA cervical sprain; S16.1XXA neck strain; M54.12 radiculopathy, cervical (provisional); M99.01 segmental dysfunction, cervical.

Plan of care

- Chiropractic: cervical and upper thoracic manipulation (low-force, as tolerated), soft-tissue work.
- Physical therapy: therapeutic exercise (deep neck flexor and scapular stabilization), manual therapy, neural mobilization, home exercise program.
- Frequency: **2–3× per week for 12 weeks**; re-evaluate every 30 days. Goals: pain ≤ 2/10, rotation ≥ 70° both ways, NDI < 20%, full duty without symptom flare.
- Coordinate with orthopedics (patient to schedule with Lakeside Orthopedics); report progress to referring provider.

Re: Letter of Protection
Our client / your patient: John Doe (DOB 08/14/1991)
Date of injury: 02/06/2026 — motor vehicle collision

Dear Ms. Greer:

This firm represents John Doe for injuries he sustained in a motor vehicle collision on February 6, 2026. Mr. Doe has been referred for chiropractic care and physical therapy at your office and will begin treatment on February 24, 2026. Your office is not a participating provider in his health plan.

In consideration of your agreement to provide that treatment and to defer collection, LSH Law Group agrees as follows:

1. Your reasonable charges for treatment related to the February 6, 2026 collision will be protected and paid from any settlement, judgment or verdict recovered on Mr. Doe's behalf, before funds are disbursed to him, to the extent of the recovery and subject to his written direction.
2. This letter does not make LSH Law Group or its attorneys responsible for payment of your charges. Mr. Doe remains responsible for your charges whether or not there is a recovery.
3. Please send itemized statements and records to this office on request, and notify us promptly if Mr. Doe misses appointments or is discharged.
4. If this firm ceases to represent Mr. Doe, we will notify you in writing, and this protection will be honored as to any recovery received by the firm.

Please sign the acknowledgment below and return a copy to our office. Thank you for your care of our client.

Very truly yours,

Elijah Thone

Atty. Elijah Thone, Lead Counsel
LSH Law Group

CLIENT CONSENT

I authorize and direct LSH Law Group to pay Riverton Spine & Rehab from any recovery in my claim as stated above. I understand I remain responsible for these charges.

John Doe
