NATURE OF CALL (DISPATCH) MVC — injuries unknown		LAW ENFORCEMENT ON SCENE Riverton PD · Ofc. T. Garner #2217 · RPD-26-018842		DISPOSITION Refused transport	PATIENTS ON SCENE 1 of 1

PATIENT				
NAME DOE, John	DOB 08/14/1991	AGE / SEX 34 / M	PHONE (555) 010-2288	
ADDRESS 2214 Maple Hollow Rd, Riverton		ALLERGIES NKDA	MEDICATIONS None	HX None reported

MECHANISM & COMPLAINT				
MECHANISM OF INJURY MVC — passenger-side (T-bone) impact by pickup	PATIENT POSITION Front-seat passenger	RESTRAINT Lap/shoulder belt	AIRBAGS Side deployed (R)	EXTRICATION None; self-exited
CHIEF COMPLAINT Neck stiffness / posterior neck pain	ONSET At impact (~07:10)	PAIN SCALE 3 / 10	LOC No	AMBULATORY AT SCENE Yes

VITAL SIGNS

Time	BP	HR	RR	SpO_2	Skin	Pupils	GCS (E/V/M)	Pain
07:21	134/86	94	18	98% RA	Warm, pink, dry	PERRL 3 mm	15 (4/5/6)	3/10
07:29	128/82	86	16	99% RA	Warm, pink, dry	PERRL 3 mm	15 (4/5/6)	3/10

ASSESSMENT

Mental status	Alert and oriented ×4. No loss of consciousness. GCS 15. Speech clear.
Head / face	No deformity, lacerations or hematoma.
Neck / C-spine	Complains of stiffness and pain, posterior neck, 3/10, worse with rotation. No midline tenderness on palpation. No step-off or deformity. Paraspinal muscles tender bilaterally, R > L.
Chest / abdomen	Chest wall non-tender, equal rise; lung sounds clear and equal. Abdomen soft, non-tender.
Back / pelvis	No tenderness. Pelvis stable.
Extremities / neuro	Moves all extremities; motor, sensation and circulation intact ×4. Grip strength equal. Denies numbness or tingling.
Impression	MVC with neck pain — possible cervical strain.
Treatment	Assessment, vital signs ×2. Transport and further evaluation recommended. No interventions accepted.

NARRATIVE

Medic 7 dispatched emergent to MVC at Maple Hollow Rd and Birch Ave. On arrival found three-vehicle scene secured by RPD. Pt is a 34 y/o male, restrained front-seat passenger, complains of neck stiffness, declined transport. Pt states pickup struck his side of the vehicle; he was wearing his seat belt; side airbags deployed; he got out on his own through the driver's door. Denies LOC, chest or abdominal pain, numbness or tingling. Assessment as above. Driver of pt's vehicle and driver of the pickup each declined evaluation per RPD. Pt advised that neck pain after a collision may worsen over hours to days and that a spinal injury cannot be excluded in the field. Pt verbalized understanding, states he wants to "see how it feels" and will follow up with his own doctor. Refusal signed 07:31, witnessed by RPD. Pt released at scene; walked to his residence at the corner (2214 Maple Hollow Rd).

REFUSAL OF TREATMENT / TRANSPORT

PATIENT ACKNOWLEDGMENT

I have been evaluated by Riverton Fire EMS and advised that I should be transported to a hospital for further evaluation. The risks of refusing, including that my condition may worsen and that an injury may not yet be apparent, have been explained to me and I understand them. I refuse transport against medical advice. I may call 911 at any time.
