Withheld from the exchange set — Atty. Thorne's decision, recorded

Record	Why it is not in the exchanged set
Confidential Mediation Statement, 03/11/2027	Delivered to the mediator alone and marked for the mediator only. It never reaches a carrier that is now on the other side.
Complaint — pre-filing draft	Superseded, unsigned, no case number, property damage not pleaded. Removed from the file set for this hearing.
Tort Complaint of 09/24/2026 and the Answer of 11/12/2026	Held in the attorney's set. Whether the pleadings of the dismissed tort case are exchanged here is Atty. Thorne's decision; he directed they be held.
Impasse memorandum, 09/08/2026, and the Negotiation Log	Internal work product, and a record of settlement communications. Held in the attorney's set for his privilege decision.
LSH intake questionnaire, 02/09/2026	The firm's own intake form: a source for the records, never an exhibit.
Mediated Settlement Term Sheet, 03/18/2027	The bodily injury exhaustion it proves is in the record at C-2 and C-4; the term sheet itself is a settlement document, held for his decision.

The audited Lien Sheet — the attorney's set, not exchanged

Claimed against the recovery	What the record actually shows	Owed
Peach State Health Plan	Notice of 02/27/2026 and its itemization; the Crescent EOB. Fully insured, so state law governs any reduction — Atty. Thorne's call.	$1,860.00
Riverton Spine & Rehab, LOP	33 attended visits × $185.00; the second 05/04/2026 line was a duplicate. The Final Itemized Ledger arrived 05/24/2027 and confirms 33 visits.	$6,105.00
Harbor Point PIP	**Nothing.** Riverton's add-on PIP carries no reimbursement from the recovery, as Harbor Point's own letter of 03/02/2026 confirms. PIP paying a bill does not create a lien.	$0.00
Summit Imaging Center	**Nothing.** PIP paid Summit's $2,395.00 invoice in full on 03/25/2026. The provider has no claim left to assert.	$0.00
Crescent Pain & Spine	**Nothing.** Paid in full by the plan at the contract rate; the $1,540.00 was a contractual adjustment it cannot bill the member.	$0.00
	OPEN LIENS, AUDITED	**$7,965.00**

The sheet listed $12,965.00. Harbor Point is the opposing carrier at this hearing: working John Doe's net from a reimbursement right the add-on PIP never carried would have cost him $5,000.00 that nobody is owed. The sheet never goes to the arbitrator; it still has to be right.

What the sort and QC changed.

In the folder	As exchanged	What it would have cost at the hearing
Public redacted Police Report from the portal	Certified complete report, redacted as this forum requires	A liability record with the witness and the citation blacked out, offered as proof of liability.
Grayscale doorbell stills	Color stills from the native file, chain of custody logged	The strongest liability exhibit on the file, illegible at the hearing.
Provider records with no certification; none requested	Certification requested from every provider and record-holder, receipt logged; Crescent's requested 05/05/2027, due 05/19, second request and subpoena flag raised	Records a carrier can object to as uncertified — the ledger unprovable record by record.
Causation Letter silent on the 2021 visits	Paired with the 2021 records, the providers' own histories and the deposition testimony; flagged to Atty. Thorne to decide whether to seek a supplemental declaration from Dr. Reyes	The prior-injury line pressed at the 02/18/2027 deposition, left unanswered.

The Confidential Mediation Statement at C-2, "for background", and the impasse memorandum at C-8	Both withheld from the exchange set, on Atty. Thorne's recorded decision	Our position, our concessions and our strategy, handed to the two carriers now on the other side.
The pre-filing draft Complaint at C-3, with the Answer	Both moved to the attorney's set; the draft out of the file set altogether	A superseded, unsigned draft offered as a pleading, in a forum where the tort case is no longer the claim.
Tab 1 held no exhaustion record: no Keystone tender, no UM consents, no Limited Release, no dismissal	Threshold exhibits lead the set at C-2 to C-4	UM opens only once the bodily injury layer is exhausted. Without that record, nothing about damages is reached at all.
The 2021 chiropractic records were not in the binder	At Tab 5 with the treating providers' histories and the deposition testimony	The prior-injury line answered by assertion instead of by the records that close it.
Authentication log not started	Complete for every exhibit, with the forum's rule flagged for Atty. Thorne	Records the carriers can object to before they are read.
Lien Sheet at $12,965.00, with Harbor Point PIP listed at $5,000.00	Audited to $7,965.00; PIP, Summit Imaging and Crescent all at $0.00	$5,000.00 out of John Doe's net, worked from a reimbursement right the add-on PIP never carried — and Harbor Point is the carrier across the table.
Brief diaried 06/12/2027	Docketed 06/11/2027	Ten days before the hearing is a Saturday. Counting backward, the brief is due the earlier business day, 06/11/2027; as configured for this training file — confirm the forum's rules.

Exchange record. Approved by Atty. Elijah Thorne 05/29/2027. Exhibits C-1 to C-19 exchanged 06/02/2027 with Harbor Point and Cardinal State and lodged with the arbitrator, delivery logged. Authentication log complete for every exhibit, with the forum's evidence rule noted as "confirm with Atty. Thorne". Master index maintained in CMS → Litigation → Exhibit index, which governs; the printed binder is a copy of it.
