In my own words, I state the following:

*I was walking my dog on the south side of Maple Hollow, at the corner of Birch, about to cross. A small silver SUV was going east on Maple Hollow. It came to a full stop at the stop sign — all the way stopped, I was looking right at it — and then it went. A dark pickup truck was coming north on Birch. It didn't even slow down. It went right past the stop sign and hit the SUV on the passenger side. The SUV slid sideways into the parked car at the curb on Birch, in front of the Doe house. Nobody else was at the intersection. The young man in the SUV's passenger seat got out holding his neck. I stayed on the corner with my dog until the police came.*

*— end — R.C.*

I have read this statement, consisting of 1 page(s), and it is true and correct to the best of my knowledge. I gave it voluntarily. No threats or promises were made to me. I understand that a false statement to a law enforcement officer may be a criminal offense. Witness initials: R.C.
